SCHEDULED WINTER NATURAL GAS FILING APPROVED FOR ATMOS ENERGY CORPORATION

Jefferson City (October 30, 2001)---Kirksville District natural gas customers of Atmos Energy Corporation will see **lower natural gas rates** under a scheduled winter season filing approved by the Missouri Public Service Commission. This decrease, which primarily reflects a reduction in the wholesale cost of natural gas, takes effect November 1, 2001. The winter season filing covers the period of November through March.

A residential customer currently pays \$0.78998 per Ccf (100 cubic feet of gas). Under this filing, the rate will drop to \$0.33272 per Ccf, a decrease of approximately 45.7 cents per Ccf. **The effect on a typical residential heating customer for the winter season is a decrease of \$406 or 51 percent when compared to rates currently in effect.**

Approximately 60% to 70% of a customer's natural gas bill reflects the cost of natural gas from wholesale suppliers. The wholesale cost of natural gas (the cost your local natural gas company must pay to its suppliers for natural gas) is not regulated by the Missouri Public Service Commission. The wellhead cost of natural gas is unregulated and is primarily driven by supply and demand. The Missouri Public Service Commission does have regulatory review authority to ensure that regulated gas companies make prudent decisions in securing natural gas supplies for their customers.

Atmos serves approximately 5,900 natural gas customers in its Kirksville District which includes the Missouri counties of Macon, Adair and Schuyler.
